- Non-GAAP earnings per share: \$0.59

MOUNTAIN VIEW, Calif., Feb. 19, 2014 /[PRNewswire](#)/ -- Synopsys, Inc. (Nasdaq: SNPS), a global leader providing software, IP and services used to accelerate innovation in chips and electronic systems, today reported results for its first quarter of fiscal year 2014.

For the first quarter of fiscal year 2014, Synopsys reported revenue of \$479.0 million, compared to \$475.1 million for the first quarter of fiscal 2013, an increase of approximately 1 percent.

"Synopsys began the year with a strong first quarter, featuring continued customer successes and excellent progress preparing for a number of upcoming product announcements," said Aart de Geus, chairman and co-CEO of Synopsys. "While customers are cautious in their spending, technology demands continue unabated, making great EDA and IP solutions essential for their success."

GAAP Results

On a generally accepted accounting principles (GAAP) basis, net income for the first quarter of fiscal 2014 was \$67.7 million, or \$0.43 per share, compared to \$69.9 million, or \$0.45 per share, for the first quarter of fiscal 2013.

Non-GAAP Results

On a non-GAAP basis, net income for the first quarter of fiscal 2014 was \$93.1 million, or \$0.59 per share, compared to non-GAAP net income of \$103.0 million, or \$0.67 per share, for the first quarter of fiscal 2013. Reconciliation between GAAP and non-GAAP results is provided at the end of this press release.

Fiscal first quarter 2013 GAAP and non-GAAP results included the impact of the reinstatement of the federal R&D tax credit for 2012 and 2013.

Synopsys also provided its financial targets for the second quarter and full fiscal year 2014. These targets do not include any impact of future acquisition-related activities or costs that may be incurred in fiscal year 2014. GAAP Reconciliation

Synopsys continues to provide all information required in accordance with GAAP, but believes evaluating its ongoing operating results may not be as useful if an investor is limited to reviewing only GAAP financial measures. Accordingly, Synopsys presents non-GAAP financial measures in reporting its financial results to provide investors with an additional tool to evaluate Synopsys' operating results in a manner that focuses on what Synopsys believes to be its ongoing business operations and what Synopsys uses to evaluate its ongoing operations and for internal planning and forecasting purposes. Synopsys' management does not itself, nor does it suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Synopsys' management believes it is useful for itself and investors to review, as applicable, both GAAP information that includes: (i) the amortization of acquired intangible assets, (ii) the impact of stock compensation, (iii) acquisition-related costs, including inventory fair value adjustments, (iv) other significant items, including facilities restructuring and the effect of tax settlements with tax authorities, and (v) the income tax effect of non-GAAP pre-tax adjustments as well as unusual or infrequent tax adjustments; and the non-GAAP measures that exclude such information in order to assess the performance of Synopsys' business and for planning and forecasting in subsequent periods. Whenever Synopsys uses a non-GAAP financial measure, it provides a reconciliation of the non-GAAP financial measure to the most closely applicable GAAP financial measure. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure as detailed below.
