MOUNTAIN VIEW, Calif., Feb. 18, 2015 /PRNewswire/ -- Synopsys, Inc. (Nasdaq: SNPS) today reported results for its first quarter of fiscal year 2015.

For the first quarter of fiscal year 2015, Synopsys reported revenue of \$542.0 million, compared to \$479.0 million for the first quarter of fiscal 2014, an increase of approximately 13.2 percent.

"Synopsys delivered strong results in the fiscal first quarter, and we are raising our revenue and non-GAAP earnings targets for the year," said Aart de Geus, chairman and co-CEO of Synopsys. "We see high demand for our new products, momentum in IP and prototyping, and we're making good progress in our higher-growth software quality and security space."

#### **GAAP Results**

On a generally accepted accounting principles (GAAP) basis, net income for the first quarter of fiscal 2015 was\$65.2 million, or \$0.41 per share, compared to \$67.7 million, or \$0.43 per share, for the first quarter of fiscal 2014.

Reconciliation between GAAP and non-GAAP results is provided at the end of this press release.

These targets do not include any impact of future acquisition-related activities or costs that may be incurred in fiscal year 2015. #### **GAAP Reconciliation**

Synopsys continues to provide all information required in accordance with GAAP, but believes evaluating its ongoing operating results may not be as useful if an investor is limited to reviewing only GAAP financial measures. Accordingly, Synopsys presents non-GAAP financial measures in reporting its financial results to provide investors with an additional tool to evaluate Synopsys' operating results in a manner that focuses on what Synopsys believes to be its ongoing business operations and what Synopsys uses to evaluate its ongoing operations and for internal planning and forecasting purposes. Synopsys' management does not itself, nor does it suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Synopsys' management believes it is useful for itself and investors to review, as applicable, both GAAP information that includes: (i) the amortization of acquired intangible assets, (ii) the impact of stock compensation, (iii) acquisition-related costs, (iv) other significant items, including restructuring charges and certain accruals for legal and tax matters, and (v) the income tax effect of non-GAAP pre-tax adjustments as well as unusual or infrequent tax adjustments; and the non-GAAP measures that exclude such information in order to assess the performance of Synopsys' business and for planning and forecasting in subsequent periods. Whenever Synopsys uses a non-GAAP financial measure, it provides a reconciliation of the non-GAAP financial measure to the most closely applicable GAAP financial measure. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure as detailed below.
