Synopsys Posts Financial Results for Third Quarter Fiscal Year 2019

Q3 2019 Financial Highlights

- Revenue: \$853.0 million

- GAAP earnings per share: \$0.65

- Non-GAAP earnings per share: \$1.18

MOUNTAIN VIEW, Calif., Aug. 21, 2019 /PRNewswire/ -- Synopsys, Inc. (Nasdaq: SNPS) today reported results for its third quarter of fiscal year 2019. Revenue was \$853.0 million, compared to \$779.7 million for the third quarter of fiscal year 2018, an increase of 9.4 percent.

"Synopsys continues to execute very well and delivered excellent third fiscal quarter revenue, operating margin, non-GAAP earnings and cash flow. In Q3, we also implemented a \$100 million share repurchase, bringing our total for the year to \$229 million," said Aart de Geus, chairman and co-CEO of Synopsys. "Despite the uncertain geopolitical and economic backdrop, global design activity and customer engagements are thriving. Our product platforms are the strongest they've ever been, driving technology wins and competitive displacements. As a result of our year-to-date overachievement and broad-based strength across the business, we're raising our annual guidance ranges."

GAAP Results

On a generally accepted accounting principles (GAAP) basis, net income for the third quarter of fiscal 2019 was \$99.9 million, or \$0.65 per share, compared to \$79.4 million, or \$0.52 per share, for the third quarter of fiscal 2018.

Non-GAAP Results

For the third quarter of fiscal 2019, on a non-GAAP basis, net income was \$182.5 million, or \$1.18 per share, compared to non-GAAP net income of \$145.6 million, or \$0.95 per share, for the third quarter of fiscal 2018.

For a reconciliation between GAAP and non-GAAP results, see "GAAP to Non-GAAP Reconciliation" and the accompanying tables below.

Business Segments

Effective in fiscal year 2019, Synopsys reports revenue and operating income in two segments: (1) Semiconductor & System Design, which includes EDA tools, IP products, system integration solutions and associated services, and (2) Software Integrity, which includes security and quality solutions for software development across many industries. Further information regarding these segments is provided at the end of this press release.

Financial Targets

Synopsys also provides its consolidated financial targets for the fourth quarter and full fiscal year 2019, which do not include any impact of future acquisition-related activities or costs. These financial targets reflect the current status of certain customers currently on the U.S. government's "Entity List," and do not assume any revenue in the fourth fiscal quarter from such customers. These targets constitute forward-looking statements and are based on current expectations. For a discussion of factors that could cause actual results to differ materially from these targets, see "Forward-Looking Statements" below.

(2) We operate and plan the business under current ASC 606 rules and regulations. In previous quarters, we provided a set of FY19 comparative metrics based on the former ASC 605 rules. However, our estimates of what revenue would have been under the previous rules have become increasingly inconsistent with, and therefore do not reflect, the underlying fundamentals of the business. Nevertheless, we estimate that FY19 target revenue using the previous ASC 605 would be approximately \$80 million less than our actual target range under the current ASC 606. Given the lack of relevance, we no longer provide detailed comparative metrics.

GAAP to Non-GAAP Reconciliation

Synopsys continues to provide all information required in accordance with GAAP but believes evaluating its ongoing operating results may not be as useful if an investor is limited to reviewing only GAAP financial measures. Accordingly, Synopsys presents non-GAAP financial measures in reporting its financial results to provide investors with an additional tool to evaluate Synopsys' operating results in a manner that focuses on what Synopsys believes to be its core business operations and what Synopsys uses to evaluate its business operations and for internal planning and forecasting purposes. Synopsys' management does not itself, nor does it suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Synopsys' management believes it is useful for itself and investors to review, as applicable, both GAAP information that includes: (i) the amortization of acquired intangible assets, (ii) the impact of stock compensation, (iii) acquisition-related costs, (iv) restructuring charges, (v) the effects of certain settlements, final judgments and loss contingencies related to

legal proceedings, (vi) the various income tax impacts prompted by the Tax Cut and Jobs Act of 2017 enacted on December 22, 2017 ("U.S. Tax Reform"), including the income tax related to transition tax and the tax rate change, and (vii) the income tax effect of non-GAAP pre-tax adjustments; and the non-GAAP measures that exclude such information in order to assess the performance of Synopsys' business and for planning and forecasting in subsequent periods.

Synopsys utilizes a normalized annual non-GAAP tax rate in the calculation of its non-GAAP measures to provide better consistency across interim reporting periods by eliminating the effects of non-recurring and period-specific items such as tax audit settlements, which can vary in size and frequency and not necessarily reflect our normal operations, and to more clearly align our tax rate with our expected geographic earnings mix. In projecting this rate, we evaluate our historical and projected mix of U.S. and international profit before tax, excluding the impact of stock-based compensation, the amortization of purchased intangibles and other non-GAAP adjustments described above. We also consider other factors including our current tax structure, our existing tax positions, and expected recurring tax incentives, such as the U.S. federal research and development tax credit. On an annual basis we re-evaluate this rate for significant events that may materially affect our projections. We expect our annual non-GAAP tax rate to be 16% in fiscal 2019 based upon our projected normalized non-GAAP annual tax rate through fiscal 2021. We will re-evaluate this rate on an annual basis, but further regulatory guidance regarding specific parts of U.S. Tax Reform could materially change our projections. Notwithstanding the foregoing, we excluded from the normalized annual non-GAAP tax rate unusual and infrequent events, such as tax audit settlements and certain impacts of U.S. Tax Reform in fiscal 2018.

Whenever Synopsys uses a non-GAAP financial measure, it provides a reconciliation of the non-GAAP financial measure to the most closely applicable GAAP financial measure. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure as detailed below, as well as Item 2.02 of the Current Report on Form 8-K filed on Aug. 21, 2019 for additional information about the measures Synopsys uses to evaluate its core business operations.

- (1) Synopsys manages the business on a long-term, annual basis, and considers quarterly fluctuations of revenue and profitability as normal elements of our business. Quarterly variability, which increases as a result of ASC 606, should be expected.
- (2) These segment results are consistent with the information required by ASC 280, Segment Reporting. They are presented to reflect the information that is considered by Synopsys' chief operating decision maker (CODM) to evaluate the operating performance of its segments. The CODM does not allocate certain operating expenses managed at a consolidated level to our reportable segments, and as a result, the reported operating income and operating margin do not include these unallocated expenses as shown in the table above. Amounts may not foot due to rounding.
