MOUNTAIN VIEW, Calif., Dec. 4, 2019 /PRNewswire/ -- [Synopsys, Inc.](#) (Nasdaq: SNPS) today reported results for its fourth quarter and fiscal year 2019. Revenue for the fourth quarter was \$851.1 million, compared to \$795.1 million for the fourth quarter of fiscal 2018. Revenue for fiscal year 2019 was \$3.361 billion, an increase of 7.7 percent from \$3.121 billion in fiscal year 2018.

"Fiscal 2019 was another outstanding year for Synopsys. Even as we navigated several external challenges, we significantly exceeded our beginning-of-year plan, and delivered strong growth in revenue, non-GAAP operating margin, earnings-per-share, and cash flow, and across both operating segments. We also returned \$329 million to shareholders via stock repurchases," said Aart de Geus, chairman and co-CEO of Synopsys. "Against a challenging global market backdrop, design activity remains strong. Our unrelenting innovation push has resulted in stronger-than-ever platforms, which are driving notable benchmark wins and increased competitive displacements. As we move into 2020, well on our way to our next milestone of \$4 billion in revenue and beyond, we are targeting solid revenue growth, continued non-GAAP operating margin expansion, mid-teens non-GAAP earnings per share growth, and strong cash flow."

GAAP to Non-GAAP Reconciliation

Synopsys continues to provide all information required in accordance with GAAP but believes evaluating its ongoing operating results may not be as useful if an investor is limited to reviewing only GAAP financial measures. Accordingly, Synopsys presents non-GAAP financial measures in reporting its financial results to provide investors with an additional tool to evaluate Synopsys' operating results in a manner that focuses on what Synopsys believes to be its core business operations and what Synopsys uses to evaluate its business operations and for internal planning and forecasting purposes. Synopsys' management does not itself, nor does it suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Synopsys' management believes it is useful for itself and investors to review, as applicable, both GAAP information that includes: (i) the amortization of acquired intangible assets, (ii) the impact of stock compensation, (iii) acquisition-related costs, (iv) restructuring charges, (v) the effects of certain settlements, final judgments and loss contingencies related to legal proceedings, (vi) the various income tax impacts prompted by the Tax Cut and Jobs Act of 2017 enacted on December 22, 2017 ("U.S. Tax Reform"), including the income tax related to transition tax and the tax rate change, and (vii) the income tax effect of non-GAAP pre-tax adjustments; and the non-GAAP measures that exclude such information in order to assess the performance of Synopsys' business and for planning and forecasting in subsequent periods.

Synopsys utilizes a normalized annual non-GAAP tax rate in the calculation of its non-GAAP measures to provide better consistency across interim reporting periods by eliminating the effects of non-recurring and period-specific items such as tax audit settlements, which can vary in size and frequency and not necessarily reflect our normal operations, and to more clearly align our tax rate with our expected geographic earnings mix. In projecting this rate, we evaluate our historical and projected mix of U.S. and international profit before tax, excluding the impact of stock-based compensation, the amortization of purchased intangibles and other non-GAAP adjustments described above. We also consider other factors including our current tax structure, our existing tax positions, and expected recurring tax incentives, such as the U.S. federal research and development tax credit. On an annual basis we re-evaluate this rate for significant events that may materially affect our projections. Based upon our review, our projected normalized annual non-GAAP tax rate remains 16% through fiscal year 2021. We will re-evaluate this rate on an annual basis, but further regulatory guidance regarding specific parts of U.S. Tax Reform could materially change our projections. Notwithstanding the foregoing, we excluded from the normalized annual non-

GAAP tax rate unusual and infrequent events, such as tax audit settlements and certain impacts of U.S. Tax Reform as described above.

Whenever Synopsys uses a non-GAAP financial measure, it provides a reconciliation of the non-GAAP financial measure to the most closely applicable GAAP financial measure. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure as detailed below, as well as Item 2.02 of the Current Report on Form 8-K filed on December 4, 2019 for additional information about the measures Synopsys uses to evaluate its core business operations.

(1) Synopsys manages the business on a long-term, annual basis, and considers quarterly fluctuations of revenue and profitability as normal elements of our business. Quarterly variability, which increases as a result of ASC 606, should be expected.

(2) These segment results are consistent with the information required by ASC 280, *Segment Reporting*. They are presented to reflect the information that is considered by Synopsys' chief operating decision maker (CODM) to evaluate the operating performance of its segments. The CODM does not allocate certain operating expenses managed at a consolidated level to our reportable segments, and as a result, the reported operating income and operating margin do not include these unallocated expenses as shown in the table above. Amounts may not foot due to rounding.
