## Q2 2021 Financial Highlights

- Revenue: \$1,024.3 million
- GAAP earnings per share: \$1.24
- Non-GAAP earnings per share: \$1.70

MOUNTAIN VIEW, Calif., May 19, 2021 /PRNewswire/ -- [Synopsys, Inc.](#) (Nasdaq: [SNPS](#)) today reported results for its second quarter fiscal year 2021. Revenue for the second quarter was \$1,024.3 million, compared to \$861.3 million for the second quarter of fiscal 2020.

"Synopsys continues to execute very well. We delivered outstanding second quarter results, exceeding all of our key guidance metrics, and business was robust across all product groups and geographies. Market demand is strong, and we see a new wave of growth on the horizon, driven by an increasing need for highly complex, connected, specialized, and secure chips and systems," said Aart de Geus, chairman and co-CEO of Synopsys. "Recent transformative technology innovations position us particularly well to enable this new era. And combined with our multi-year focus on accelerating growth and expanding non-GAAP operating margin, we continue to manage the business to drive significant long-term shareholder value. Our excellent year-to-date results, coupled with increased confidence in our business, lead us to raise our fiscal 2021 revenue, non-GAAP earnings and operating margin, and operating cash flow targets."

## GAAP Results

On a generally accepted accounting principles (GAAP) basis, net income for the second quarter of fiscal 2021 was \$195.1 million, or \$1.24 per share, compared to \$109.9 million, or \$0.71 per share, for the second quarter of fiscal 2020.

## Non-GAAP Results

On a non-GAAP basis, net income for the second quarter of fiscal 2021 was \$267.1 million, or \$1.70 per share, compared to non-GAAP net income of \$188.3 million, or \$1.22 per share, for the second quarter of fiscal 2020.

For a reconciliation between GAAP and non-GAAP results, see "GAAP to Non-GAAP Reconciliation" and the accompanying tables below.

## Business Segments

Synopsys reports revenue and operating income in two segments: (1) Semiconductor & System Design, which includes EDA tools, IP products, system integration solutions and associated services, and (2) Software Integrity, which includes security and quality solutions for software development across many industries. Further information regarding these segments is provided at the end of this press release.

## Financial Targets

Synopsys also provided its consolidated financial targets for the third quarter and full fiscal year 2021. These financial targets assume that there are no further changes to the current U.S. government "Entity List" restrictions for the rest of the fiscal year. These targets constitute forward-looking statements and are based on current expectations. For a discussion of factors that could cause actual results to differ materially from these targets, see "Forward-Looking Statements" below.

## GAAP to Non-GAAP Reconciliation

Synopsys continues to provide all information required in accordance with GAAP but believes evaluating its ongoing operating results may not be as useful if an investor is limited to reviewing only GAAP financial measures. Accordingly, Synopsys presents non-GAAP financial measures in reporting its financial results to provide investors with an additional tool to evaluate Synopsys' operating results in a manner that focuses on what Synopsys believes to be its core business operations and what Synopsys uses to evaluate its business operations and for internal planning and forecasting purposes. Synopsys' management does not itself, nor does it suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Synopsys' management believes it is useful for itself and investors to review, as applicable, both GAAP information that includes: (i) the amortization of acquired intangible assets, (ii) the impact of stock compensation, (iii) acquisition-related costs, (iv) restructuring charges, (v) the effects of certain settlements, final judgments and loss contingencies related to legal proceedings, and (vi) the income tax effect of non-GAAP pre-tax adjustments; and the non-GAAP measures that exclude such information in order to assess the performance of Synopsys' business and for planning and forecasting in subsequent periods.

Synopsys utilizes a normalized annual non-GAAP tax rate in the calculation of its non-GAAP measures to provide better consistency across interim reporting periods by eliminating the effects of non-recurring and period-specific items such as tax audit settlements, which can vary in size and frequency and not necessarily reflect our normal operations, and to more clearly align our tax rate with our expected geographic earnings mix. In projecting this rate, we evaluate our historical and projected mix of U.S. and international profit before tax, excluding the non-

GAAP adjustments described above. We also consider other factors including our current tax structure, our existing tax positions, and expected recurring tax incentives. On an annual basis, we re-evaluate this rate for significant events, including changes in tax laws and regulations, that may materially affect our projections. Based upon our review, our projected normalized annual non-GAAP tax rate remains 16% through fiscal year 2021.

Whenever Synopsys uses a non-GAAP financial measure, it provides a reconciliation of the non-GAAP financial measure to the most closely applicable GAAP financial measure. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure as detailed below, as well as Item 2.02 of the Current Report on Form 8-K filed on May 19, 2021 for additional information about the measures Synopsys uses to evaluate its core business operations.

(1) Synopsys manages the business on a long-term, annual basis, and considers quarterly fluctuations of revenue and profitability as normal elements of our business. Amounts may not foot due to rounding.

(2) These segment results are consistent with the information required by ASC 280, *Segment Reporting*. They are presented to reflect the information that is considered by Synopsys' chief operating decision makers (CODMs) to evaluate the operating performance of its segments. The CODMs do not allocate certain operating expenses managed at a consolidated level to our reportable segments, and as a result, the reported operating income and operating margin do not include these unallocated expenses as shown in the table above. Amounts may not foot due to rounding.

(3) Synopsys' second quarter of fiscal year 2021 and 2020 ended on May 1, 2021 and May 2, 2020, respectively. For presentation purposes, we refer to the closest calendar month end.
