Synopsys Posts Financial Results for Third Quarter Fiscal Year 2022

Q3 FY 2022 Financial Highlights

- Revenue: \$1.248 billion
- GAAP earnings per diluted share: \$1.43
- Non-GAAP earnings per diluted share: \$2.10

MOUNTAIN VIEW, Calif., Aug. 17, 2022 /PRNewswire/ -- Synopsys, Inc. (Nasdaq: SNPS) today reported results for its third quarter fiscal year 2022. Revenue for the third quarter of fiscal year 2022 was \$1.248 billion, compared to \$1.057 billion for the third quarter of fiscal year 2021.

"Synopsys continues to execute very well. We delivered excellent fiscal third quarter results, with broad-based strength, and are increasing our outlook for the year," said Aart de Geus, chairman and CEO of Synopsys. "Technology strength across the board, including multiple game-changing innovations, drove outstanding technical, competitive, and business results. While our customers navigate through the ebbs and flows of the market, they are simultaneously investing heavily in more complex chips, more sophisticated systems, and more software. The combination of Synopsys' powerful portfolio and constructive market dynamics, plus the resilience of our business model, position us for a strong finish to the year. We expect to cross the \$5 billion revenue mark in FY'22, with over 20% revenue growth, strong margin expansion and EPS growth, and more than \$1.6 billion in operating cash flow."

GAAP Results

On a generally accepted accounting principles (GAAP) basis, net income for the third quarter of fiscal year 2022 was \$222.6 million, or \$1.43 per diluted share, compared to \$198.6 million, or \$1.27 per diluted share, for the third quarter of fiscal year 2021.

Non-GAAP Results

On a non-GAAP basis, net income for the third quarter of fiscal year 2022 was \$327.4 million, or \$2.10 per diluted share, compared to non-GAAP net income of \$284.5 million, or \$1.81 per diluted share, for the third quarter of fiscal year 2021.

For a reconciliation of net income, earnings per diluted share and other measures on a GAAP and non-GAAP basis, see "GAAP to Non-GAAP Reconciliation" in the accompanying tables below.

Business Segments

Synopsys reports revenue and operating income in two segments: (1) Semiconductor & System Design, which includes EDA tools, IP products, system integration solutions and other associated revenue categories, and (2) Software Integrity, which includes a comprehensive solution for building integrity—security, quality and compliance testing—into the customers' software development lifecycle and supply chain. Further information regarding these segments is provided at the end of this press release.

Financial Targets

Synopsys also provided its consolidated financial targets for the fourth quarter and full fiscal year 2022. These targets constitute forward-looking statements and are based on current expectations. GAAP to Non-GAAP Reconciliation

Synopsys continues to provide all information required in accordance with GAAP, but acknowledges evaluating its ongoing operating results may not be as useful if an investor is limited to reviewing only GAAP financial measures. Accordingly, Synopsys presents non-GAAP financial measures in reporting its financial results to provide investors with an additional tool to evaluate Synopsys' operating results in a manner that focuses on what Synopsys believes to be its core business operations and what Synopsys uses to evaluate its business operations and for internal planning and forecasting purposes. Synopsys' management does not itself, nor does it suggest that investors should, consider such non-GAAP financial measures in isolation from, superior to, or as a substitute for, financial information prepared in accordance with GAAP. Synopsys' management believes it is useful for itself and investors to review, as applicable, both GAAP financial measures that include: (i) the amortization of acquired intangible assets, (ii) the impact of stock compensation, (iii) acquisition-related costs, (iv) restructuring charges, (v) the effects of certain settlements, final judgments and loss contingencies related to legal proceedings, and (vi) the income tax effect of non-GAAP pre-tax adjustments; and the non-GAAP financial measures that exclude such information in order to assess the performance of Synopsys' business and for planning and forecasting in subsequent periods.

Synopsys adopted a three-year normalized non-GAAP tax rate of 16% for fiscal years 2019 through 2021 in calculating non-GAAP financial measures to provide better consistency across interim reporting periods by eliminating the effects of non-recurring and period-specific items, which can vary in size and frequency and do not necessarily reflect our normal operations, and to more closely align our tax rate with our expected geographic earnings mix.

Given the uncertainty surrounding corporate tax reform, Synopsys adopted an annual non-GAAP tax rate of 18% for fiscal year 2022 rather than a three-year normalized non-GAAP tax rate in calculating its non-GAAP financial measures. This annual non-GAAP tax rate is based on an evaluation of its historical and projected mix of U.S. and international profit before tax, taking into account the impact of non-GAAP adjustments, as well as other factors such as its current tax structure, existing tax positions and expected recurring tax incentives. Synopsys will re-evaluate this rate on an annual basis for any significant events that could materially affect its projections, such as significant changes in its geographic earnings mix or significant tax law changes in major jurisdictions where Synopsys operates, and will further consider the appropriateness of adopting a multi-year normalized non-GAAP tax rate.

Whenever Synopsys uses a non-GAAP financial measure, it provides a reconciliation of the non-GAAP financial measure to the most closely applicable GAAP financial measure. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure as detailed below, as well as Item 2.02 of Synopsys' Current Report on Form 8-K filed on August 17, 2022, for additional information about the measures Synopsys uses to evaluate its core business operations.
